Wednesday, December 20, 2017
9:00 a.m.

Washoe County Administration Complex, Building B
Health District South Conference Room
1001 East Ninth Street
Reno, NV

An item listed with asterisk (*) next to it is an item for which no action will be taken.
9:00 a.m.

1. *Roll Call and Determination of Quorum
2. *Pledge of Allegiance
3. *Public Comment

Any person is invited to speak on any item on or off the agenda during this period. Action may not be taken on any matter raised during this public comment period until the matter is specifically listed on an agenda as an action item.

4. Approval of Agenda – (For possible action)
December 20, 2017

5. Staff's Recommendation for Approval of Variance Case No. 1-17FP Pignic Pub & Patio Application for Variance to Sections 200.055(B)(Outdoor food establishment, food preparation by consumer), 200.055(E) (Outdoor food establishment, food preparation by consumer), and 060.205(A)(Food equipment, certification and classification) of the Regulations of the Washoe County District Board of Health Governing Food Establishments. - (For possible action)
Staff Representative: David McNinch

6. *Board Comment
Limited to announcements or issues for future agendas.

7. *Public Comment
Any person is invited to speak on any item on or off the agenda during this period. Action may not be taken on any matter raised during this public comment period until the matter is specifically listed on an agenda as an action item.

8. Adjournment – (For possible action)

Possible Changes to Agenda Order and Timing. Items on the agenda may be taken out of order, combined with other items, withdrawn from the agenda, moved to the agenda of another later meeting; moved to or from the Consent section, or they may be voted on in a block. Items with a specific time designation will not be heard prior to the stated time, but may be heard later. Items listed in the Consent section of the agenda are voted on as a block and will not be read or considered separately unless withdrawn from the Consent agenda.

Special Accommodations. The Food Protection Hearing and Advisory Board Meetings are accessible to the disabled. Disabled members of the public who require special accommodations or assistance at the meeting are requested to notify Administrative Health Services in writing at the Washoe County Health District, PO Box 1130, Reno, NV 89520-0027, or by calling 775.328.2416, 24 hours prior to the meeting.

Public Comment. During the “Public Comment” items, anyone may speak pertaining to any matter either on or off the agenda, to include items to be heard on consent. For the remainder of the agenda, public comment will only be heard during items that are not marked with an asterisk (*). Any public comment for hearing items will be heard before action is taken on the item and must be about the specific item being considered by the Board. In order to speak during any public comment, each speaker must fill out a “Request to Speak” form and/or submit comments for the record to the Recording Secretary. Public comment for individual agenda items is limited as follows: three minutes for individual speakers.

Response to Public Comment. The Food Protection Hearing and Advisory Board can deliberate or take action only if a matter has been listed on an agenda properly posted prior to the meeting. During the public comment period, speakers may address matters listed or not listed on the published agenda. The *Open Meeting Law* does not expressly prohibit responses to public comments by the Food Protection Hearing and Advisory Board. However, responses from the Board members to unlisted public comment topics could become deliberation on a matter without notice to the public. On the advice of legal counsel and to ensure the public has notice of all matters the Food Protection Hearing and Advisory Board will consider, Board members may choose not to respond to public comments, except to correct factual inaccuracies, ask for Health District Staff action or to ask that a matter be listed on a future agenda. The Food Protection Hearing and Advisory Board may do this either during the public comment item or during the following item: “Board Comments – Limited to Announcement or Issues for future Agendas.”

Posting of Agenda; Location of Website.

Pursuant to NRS 241.020, Notice of this meeting was posted at the following locations:

Washoe County Health District, 1001 E. 9th St., Reno, NV
Reno City Hall, 1 E. 1st St., Reno, NV
Sparks City Hall, 431 Prater Way, Sparks, NV
Washoe County Administration Building, 1001 E. 9th St, Reno, NV
Downtown Reno Library, 301 S. Center St., Reno, NV
Washoe County Health District Website www.washoecounty.us/health
State of Nevada Website: <https://notice.nv.gov>

How to Get Copies of Agenda and Support Materials. Supporting materials are available to the public at the Washoe County Health District located at 1001 E. 9th Street, in Reno, Nevada. Ms. Laura Rogers, Administrative Secretary to the District Board of Health is the person designated by the Washoe County District Board of Health to respond to requests for supporting materials. Ms. Rogers is located at the Washoe County Health District and may be reached by telephone at (775) 328-2415 or by email at lrogers@washoecounty.us. Supporting materials are also available at the Washoe County Health District Website www.washoecounty.us/health pursuant to the requirements of NRS 241.020.

Staff Report
Board Meeting Date: December 20, 2017

TO: Food Protection Hearing and Advisory Board

FROM: David McNinch, RHES, Environmental Health Services Division
(775) 328-2645, dmcninch@washoecounty.us

SUBJECT: Pignic Pub & Patio
Staff's Recommendation for Approval of Variance Case No. 1-17FP Pignic Pub & Grill Application for Variance to Sections 200.055(B)(Outdoor food establishment, food preparation by consumer), 200.055(E) (Outdoor food establishment, food preparation by consumer), and 060.205(A)(Food equipment, certification and classification) of the Regulations of the Washoe County District Board of Health Governing Food Establishments.

Authority to hold hearing on variance requests:

Pursuant to Section 240.085 of the regulations of the Washoe County District Board of Health Governing Food Establishments, the Food Protection Hearing and Advisory Board shall hold hearings to consider variance requests to any section of the regulations.

District Health Strategic Objective supported by this item: Healthy Environment – Create a healthier environment that allows people to safely enjoy everything Washoe County has to offer.

Applicable Regulations:

Section 200.055(B) Consumers may be permitted to cook, baste and season while cooking food items for their own personal consumption provided the consumer uses only food items, utensils and equipment provided from the supporting food establishment or outdoor food establishment.

Section 200.055(E) Consumers may be permitted to cook, baste and season while cooking food items for their own personal consumption provided the consumer is not cooking, basting or seasoning while cooking food items for anyone's consumption but their own.

Section 060.205(A) Except as provided in Subsections B and C of this section, food equipment that is certified or classified for sanitation by an American National Standards Institute (ANSI) accredited certification program is deemed to comply with these regulations.

Previous Action:

On October 9, 2014, Washoe County Health District (WCHD) staff issued a permit to operate a restaurant for Pignic Pub & Patio located at 235 Flint Street in Reno. It was noted during the permit issuance that Pignic Pub & Patio intended to conduct all cooking outdoors on grills and one electric range as well as allow patrons to bring and cook their own food. Aside from requiring that the Certified Food Protection Manager (CFPM) provide assistance to patrons on

temperature cooking requirements and advise of safe food handling and monitoring of equipment, the WCHD did not stipulate any other conditions to ensure protection of the public's health.

On May 14, 2015, WCHD staff conducted an annual routine inspection at which time a need for general cleaning was noted, but no critical items were observed. Critical items are defined as violations that are more likely than other violations to contribute to food contamination, illness, or environmental health hazards.

In June 2015, the Washoe County District Board of Health approved a comprehensive revision of their regulations governing food establishments which included requirements that operators submit operational plans for certain activities such as barbecuing and special processes. New provisions also provided for conducting certain outdoor foodservice activities without having to meet standard "brick and mortar" construction requirements or having to routinely obtain temporary food permits. While these provisions became effective in June 2015, the WCHD has systematically addressed compliance, including operational plan submittal requirements, during permit issuance (new facilities) and annual routine inspections (existing facilities).

On June 15, 2016, WCHD staff conducted an annual routine inspection at which time several violations were noted including two (2) critical items. It was also documented that no CFPM's were on-site at the time of the inspection. As a Risk Level III food establishment (i.e. the facility presents a significant relative risk of causing foodborne disease based on their food handling operations typically implicated in foodborne disease outbreaks), Pignic Pub & Patio is required to have a CFPM on-site at all times the facility is in operation. A re-inspection conducted June 23, 2016 validated that all items noted during the June 15, 2016 routine inspection had been corrected.

On February 1, 2017, WCHD staff conducted a site visit based on information that the facility was hosting a weekly event that included customers bringing food to share with other customers (i.e. potlucks). Because foods prepared in a private home and served at a food establishment are not considered to be from an approved source, Pignic Pub & Patio was issued a notice to cease and desist all potluck related activities at the facility. Subsequent to the notice, Pignic Pub & Patio advertised a "Valentine's Day Edition Spaghetti Potluck" that included side dishes provided by guests. WCHD staff conducted a second site visit on February 13, 2017 and informed the operator that the notice to cease and desist all potluck related activities at the facility was still in effect. At the time of the second site visit, staff also addressed proper service of "communal" foods which were being prepared by Pignic Pub & Patio and provided to customers. Specifically, staff required that all foods being served communally be accompanied by tongs, toothpicks, spoons, etc. to prevent potential cross-contamination by customers serving themselves.

On February 14, 2017, WCHD staff conducted a site visit to validate compliance with the notice to cease and desist issued on February 1, 2017. Pignic Pub & Patio was noted as being compliant with the notice to cease and desist; however, staff observed bare hand contact with ready-to-eat foods (employees were chopping lettuce with bare hands) which is a critical item.

On February 23, 2017, WCHD staff conducted an annual routine inspection at which time several violations were noted including three (3) critical items that were required to be corrected on-site in order for Pignic Pub & Patio to remain in operation. In addition, 17 non-critical items were noted as being out of compliance including repeat violations from previous inspections (e.g. no CFPM on-site). Pictures from that inspection are included in the packet. Pignic Pub &

Patio was also issued a notice to cease and desist outside barbecuing activities until such time as they had an approved operational plan.

On March 14, 2017, WCHD staff conducted a re-inspection and noted that several items from the February 23, 2017 inspection had not been corrected.

On March 27, 2017, WCHD staff conducted a second re-inspection (fee assessed) and noted that several items noted from the February 23, 2017 inspection had still not been corrected. The permit was suspended pending correction of all noted violations.

On April 13, 2017, WCHD staff conducted a third re-inspection (fee assessed) and noted that most of the remaining non-critical items had been corrected. The permit was reinstated with the requirement to correct the remaining items by April 20, 2017. WCHD staff also reiterated the continuation of the cease and desist notice regarding outdoor barbecuing activities, and required them to submit an operational plan.

On October 8, 2017, WCHD staff conducted an inspection for Rawbry, a business specializing in juices, who had obtained a temporary food permit to operate at an event at the Pignic Pub & Patio. During the inspection, it was noted that Pignic Pub & Patio was conducting barbecuing activities in violation of the cease and desist order issued on February 1, 2017. Due to the temporary food event occurring at Pignic at the time, staff completed a food safety inspection on Pignic's foodservice activities and required them to retroactively obtain a temporary food permit.

On October 10, 2017, a representative from Pignic Pub & Patio submitted the required temporary food application and remitted payment. Pignic Pub & Patio was also required to apply for two additional temporary food permits for events planned later that week.

On October 18, 2017, WCHD staff met with Mr. Ryan Goldhammer (owner of Pignic Pub & Patio) to discuss a variety of operational issues including:

- Submittal of an operational plan for barbecuing activities;
- Submittal of an operational plan if they wish to allow dogs on their patio area;
- Permitting options for operating outside foodservice activities based on our understanding of their operations (temporary food permits or obtaining an outdoor food establishment permit);
- Construction requirements based on their proposed foodservice activities; and
- Requirements for engaging in special processes.

On that day, Pignic Pub & Patio was also issued a notice to cease and desist cooking for customers on outside equipment as well as allowing customers to bring their own food to the food establishment for preparation, storage, and service. A representative of Pignic Pub & Patio subsequently addressed the Board of Health and met with the District Health Officer. Based on those communications, the District Health Officer agreed to hold the cease and desist notice issued October 18, 2017 in abeyance during the period that a variance was considered as long as both the variance was applied for, and the required operational plan was submitted, by November 3, 2017. Pignic Pub & Patio submitted a variance application (without payment) and an operational plan. The Health District determined that both were insufficient to address the Health District's concerns. Pignic Pub & Patio was encouraged to submit a revised variance request and apply for the variance and they were required to submit an application for an outdoor food establishment. Communications between Pignic Pub & Patio and the Environmental Health Services Division continued through November 14, 2017 at which time Pignic Pub & Patio was informed to submit and remit payment for a revised variance as well as submit an application for an Outdoor Food Establishment by early afternoon on Friday, November 17, 2017, in order to avoid enforcement action. When Pignic Pub & Patio did not submit or remit payment for a

revised variance application or Outdoor Food Establishment application by early Friday afternoon on November 17, 2017 as requested, the Health District determined that sufficient progress had not been made and the permit to operate the restaurant was suspended in the late afternoon pending submittal of written procedures that clearly define foodservice operations and how those operations will comply with pertinent food safety regulations. Right after the suspension, a representative of Pignic Pub & Patio did submit a revised variance request and an application for an outdoor food establishment, but declined to remit payment at that time when notified that the permit suspension would remain in place until foodservice operations are clearly defined through approved applications (including variances) and operational plans. Payment for the variance request and outdoor food establishment application was remitted on Monday, November 20, 2017.

On November 6, 2017, the WCHD was informed by the City of Reno that Pignic Pub & Patio had been issued a cease and desist in June 2017 for using a non-licensed bar area in the attic. Operation of this area as a food establishment (including as a bar) would be a violation of WCHD regulations since it does not currently have a permit. During previous inspection of the facility, WCHD questioned the use of this area and was informed there were no keys available to unlock the door but that the area was office space only and that no food/beverage storage, service, or preparation was occurring. It is our understanding that plans have been submitted to bring the area in to compliance with the City's requirements. The WCHD has not received an application to operate a second bar at Pignic Pub & Patio.

On December 4, 2017 staff met with the owner of Pignic Pub & Patio, Mr. Ryan Goldhammer, as well as his representative, Mr. Tom Clark. The meeting was provided as an opportunity for Pignic Pub & Patio to ask clarifying questions regarding the required operational plan associated with the pending outdoor food establishment permit. During the meeting, Mr. Goldhammer and Mr. Clark expressed concerns with the Health District's proposed conditions that all food brought in by customers be in original packaging and that receipts for the purchase of the food be provided to and retained by Pignic Pub & Patio. Void of alternatives to address the Health District's concerns regarding "approved source", the Health District did not concur with Pignic Pub & Patio's request to remove the conditions.

On December 5, 2017, Health District representatives conducted a site visit to evaluate the proposed outdoor food establishment area and, if necessary, provide Pignic Pub & Patio with a list of items needing correction before the permit could be issued. A routine inspection was also conducted on the permitted bar. During the routine inspection of the bar, staff observed a cheese tray being served to the public in violation of the suspension imposed on the restaurant permit on November 17, 2017. In addition, the food was being provided to customers in a manner that did not protect from cross-contamination as required during inspections prior to suspension of the restaurant permit. Finally, it was noted that the food observed being stored in the restaurant kitchen had not been removed as explicitly required during our November 17, 2017 suspension notice.

On December 13, 2017, staff met with Mr. Ryan Goldhammer to review the operational plan submitted by Pignic Pub & Patio on December 4, 2017 meeting. Mr. Goldhammer will submit a final draft reflecting discussed amendments and/or edits.

Findings of Fact:

Under established precedent, the Hearing Board may recommend a variance only if, after a hearing on due and proper notice, it determines by a preponderance of evidence the following:

1. Can the proposed operation of the food establishment avoid endangering the health and safety of persons living in the Washoe County Health District, if this variance is granted?

The proposed operation can be conducted in such a way as to avoid endangering the health and safety of persons living in or visiting the Washoe County Health District. Consequently, the Health District is supportive of the variance request. However, due to the Health District's concerns with Pignic Pub & Patio's compliance history and lack of consistent active managerial control, that support is predicated on the inclusion of and strict adherence to the conditions provided in our recommendation below. The Health District would also like to emphasize the importance of foods being obtained from "approved sources". The Food and Drug Administration has identified that one of the top five (5) risk factors contributing to foodborne disease are foods that do not come from an "approved source". Furthermore, all health jurisdictions in the State of Nevada consider any food from an unapproved or unknown source to constitute a "substantial health hazard" which has the potential to cause injury to public health. Without appropriate controls, the public's health is unnecessarily put at risk.

2. Would compliance to these Regulations produce a hardship on the applicant without equal or greater benefit to the public?

The applicant has indicated that compliance with the Regulations would require deviation from their original business model which would create significant hardship. While the Health District believes compliance with the Regulations provides benefit to the public, approval of the variance and recommended conditions and strict adherence to those conditions will provide an equal benefit.

3. Will the owners of property in the general vicinity of the food establishment be adversely affected if this variance is approved?

The owners of property in the general vicinity will not be adversely affected if this variance is approved.

Recommendation:

Staff recommends that the Board advise the District Health Officer to grant the variance. Staff also recommends that the variance be contingent on strict adherence to the following conditions:

1. All foods brought in by customers shall be:
 - a. In original packaging;
 - b. In sound condition with no evidence of temperature abuse or mishandling; and
 - c. Within their "use-by" dates.
2. Each customer is provided with a copy of a consumer warning statement that includes:
 - a. Safe final cooking temperatures for raw animal foods;
 - b. Instructions on how to use provided temperature monitoring devices;
 - c. The physical hazards associated with using the equipment; and
 - d. A consumer warning for the consumption of animal foods that are raw or undercooked consistent with Section 050.360 of the Regulations of the Washoe County District Board of Health Governing Food Establishments.
3. A copy of the sales receipt for each food item brought in by the customer is provided to Pignic Pub & Patio and is made available for review by WCHD staff upon request and held for at least six (6) months.

4. Pignic Pub & Patio will verify the foods brought in by customers are held at proper holding temperatures according to Section 050.310 of the Washoe County District Board of Health Regulations Governing Food Establishments.
5. Customers only prepare, cook, or baste food for their own consumption or for consumption by those in their party. Customers shall not share any food products, equipment, or utensils with other customers/parties.
6. A person-in-charge will be present at all times when customers are cooking to ensure:
 - a. Each kitchenette, barbecue, and equipment used by customers is cleaned and sanitized between customers/parties;
 - b. All utensils and equipment provided to customers is washed, rinsed, and sanitized inside the facility kitchen between each customer/party; and
 - c. Each kitchenette and barbecue is inspected by Pignic Pub & Patio staff between customers/parties and all left over foods or condiments are removed and discarded.
7. No changes to the foodservice operations are allowed without prior approval from the Health Authority.
8. Pignic Pub & Patio must be in full compliance with all conditions at all times. Failure to maintain compliance may result in the revocation of the variance at which time full compliance with Sections 200.055(B), 200.055(E), and 060.205(A) will be required.

In addition to needing a variance to conduct proposed foodservice operations at their facility, Pignic Pub & Patio must have an outdoor food establishment permit that has been issued by the Health District as well as an operational plan approved by the Health District. The Health District will require that the conditions noted above be addressed as a component of the operational plan.

Alternatives:

1. The Hearing Board members can recommend that the District Health Officer approve the variance under modified conditions (this can include conditions other than or in addition to those recommended by staff).
2. The Hearing Board members can recommend that the District Health Officer deny a variance request.

Possible Motion:

Should the Board agree with staff's recommendation, a possible motion would be "Move to recommend that the District Health Officer approve Pignic Pub & Patio's variance request providing Pignic Pub & Patio comply with conditions 1 - 8 as presented in this staff report."

CFM Expiration Date:

Below is the result of today's inspection. "VIOLATED: POINTS DEDUCTED" indicates a NOTICE of VIOLATION of the Washoe County District Board of Health Regulations Governing Food Establishments, and is an ORDER to abate the violation within the time frame(s) specified. Corrections are described in the section titled Official Notice.

SECTION I: FOOD SOURCES

2200-00010 - [5] Source sound condition; no spoilage

2200-00020 - [1] Original container; properly labeled

SECTION II: FOOD PROTECTION

2200-00030 - [5] Potentially hazardous food meets temperature requirements during storage; preparation, display, service, transportation

2200-00040 - [4] Facilities to maintain product temperature

2200-00050 - [2] Food protected during storage, preparation, display, service, transportation

2200-00060 - [2] Handling of food, ice, minimized

2200-00070 - [2] Potentially hazardous food properly thawed

2200-00080 - [1] Thermometers provided and conspicuous

2200-00090 - [1] In-use food, ice dispensing utensils properly stored

SECTION III: PERSONNEL

2200-00100 - [5] Personnel with infections restricted

2200-00110 - [5] Hands washed and cleaned, good hygienic practices

2200-00120 - [1] Clean clothes, hair restraints

2200-00130 - [3] CFPM or person in charge present, certificates posted as required

SECTION IV: EQUIPMENT & UTENSILS

- 2200-00140 - [4] Sanitization rinse, clean, temperature concentration, exposure time; equipment, utensils sanitized
- 2200-00150 - [2] Food (ice) contact surfaces: designed, constructed, maintained, installed, located
- 2200-00160 - [2] Dishwasher facilities designed, constructed, maintained, installed, located, operated as required
- 2200-00170 - [2] Food contact surfaces of equipment and utensils clean, free of abrasives, detergents
- 2200-00180 - [2] No re-use of single service articles
- 2200-00190 - [2] Wash, rinse water: clean, proper temperature
- 2200-00200 - [2] Accurate thermometers, chemical test kits provided, gauge cock (1/4" IPS Valve)
- 2200-00210 - [1] Non-food contact surfaces: designed, constructed, maintained, installed, located
- 2200-00220 - [1] Non-food contact surfaces of equipment and utensils clean
- 2200-00230 - [1] Storage, handling of clean equipment / utensils
- 2200-00240 - [1] Single service: articles, storage, dispensing, used
- 2200-00250 - [1] Wiping clothes: clean, use restricted

SECTION V: WATER

- 2200-00260 - [5] Water sources: safe, hot & cold under pressure

SECTION VI: SEWAGE

- 2200-00270 - [5] Sewage and waste water disposal

SECTION VII: PLUMBING

- 2200-00280 - [5] Cross connection, back siphonage, backflow
- 2200-00290 - [1] Installed, maintained

SECTION VIII: TOILETS & HANDSINKS

- 2200-00300 - [4] Number, convenient, accessible, designed, installed
- 2200-00310 - [2] Toilet rooms: self closing doors, fixtures maintained, clean, hand soap/drying devices provided; proper waste receptacle

SECTION IX: GARBAGE & REFUSE

- 2200-00320 - [2] Containers or receptacles: covered, adequate number, insect/rodent proof; frequency, clean
- 2200-00330 - [1] Outside storage area enclosures: properly constructed, clean, controlled incineration

SECTION X: VERMIN & ANIMALS

- 2200-00340 - [4] Presence of vermin, outer openings protected, no prohibited animals

SECTION XI: FLOOR; WALL; CEILING

- 2200-00350 - [1] Floors; constructed, drained, clean, good repair, covering installation, dustless cleaning methods
- 2200-00360 - [1] Walls; ceilings: attached equipment constructed, good repair, clean surfaces, dustless cleaning methods

SECTION XII: LIGHTING

- 2200-00370 - [1] Lighting provided as required, fixtures shielded

SECTION XIII: VENTILATION

2200-00380 - [1] Rooms and equipment - vented as required

SECTION XIV: DRESSING ROOMS

2200-00390 - [1] Rooms clean, lockers provided, facilities clean, properly located

SECTION XV: OTHER OPERATIONS

2200-00400 - [5] Necessary toxic items properly stored, labeled, used

2200-00410 - [1] Premises free of litter, unnecessary articles, equipment/personal articles properly stored, authorized personnel

2200-00420 - [1] Clean, soiled linen properly stored

2200-00430 - [1] Raw / undercooked food advisory, liquor birth defect warning signs posted as required

Official Notice:

General Comments:

2200-COMM - The items noted on the inspection conducted on 10/8/14 have been corrected except as follows:

- 1) Paint basement sheetrock ceiling.
 - 2) Install covered base along FRP wall.
 - 3) walk-in cooler currently disconnected, must be operating at below 40 F. (No TCS foods planned to be stored there soon).
 - 4) The splash guard between dish washer board and mop sink is not rigid and easy to bend. Replace with a thicker metal panel or other nonabsorbent material that will not bend.
- Use of mop sink as hand sink in basement will be discussed.

Risk category 2 assigned. Must have one Certified Food Protection Manager on staff full time who has completed an approved certification course by 12/9/14.

All cooking will be done outdoors on grills and on one electric range. One hand sink is provided outside. Patrons will bring and cook their own food. CFPM required for assistance to patrons on temperature cooking requirements and advise of safe food handling, and for monitoring of refrigerated and dish washing equipment.

Ok to issue permit to operate

Plans to open on this day.

Date by which the above violations must be abated: **10/16/2014**

Failure to comply with this notice may result in immediate suspension of the Permit to Operate. An opportunity for an appeal will be provided if a written request for a hearing is filed with the Health Authority within the period of time established in this notice for the correction of violations.

2205-00420 - [1] Clean, soiled linen properly stored

2205-00430 - [1] Raw / undercooked food advisory, liquor birth defect warning signs posted as required

Official Notice:

2205-00050 - Observed forgotten and potentially spoiled food in residential style refrigerator downstairs. Food was voluntarily discarded. Ensure prepared food is only kept for 7 days and that food is not forgotten and left to rot.

2205-00130 - Facility is a risk category III establishment but does not have a CFPM onsite during inspection. Due to risk category III status, facility must have a CFPM onsite during all hours of potentially hazardous food preparation and/or service. Facility must certify enough CFPMs to be onsite during all hours of potentially hazardous food prep/service.

2205-00150 - Observed utensils stored in segregated bus tub open to customers. Change storage to a manner that protects the tine end of utensils from customer hands to prevent contamination of clean and sanitary surfaces. Discussed using cup-type containers instead of open bus tub.

2205-00200 - Facility uses chlorine in dishwashing machine and quat for surface sanitizer- does not have test strips for either. Obtain test strips for quat and bleach and test regularly to ensure proper sanitization.

No thermometers available in reach in coolers upstairs. Obtain thermometers and place in conspicuous location to ensure that food is kept at 41F or below.

2205-00220 - Observed spills and forgotten food in a residential-style refrigerator downstairs. Clean and maintain all equipment regularly to prevent pest attraction, spoilage, and prevent cross-contamination.

2205-00410 - Observed employee food in customer reach in upstairs. Ensure only customer food is kept in reach of customers- keep any homemade foods or condiments that can not be reused in a sanitary manner in the downstairs area to prevent cross contamination.

General Comments:

2205-COMM - No CFPM onsite during time of inspection- certificates not kept at facility either. ***Keep a copy of every CFPM certificate in your facility***

Observed:

Handsink stocked and available

Cold holding ok- meat @ 39F

Date marking ok

Dry storage good- all food stored off floor

Good separation of chemicals and single service

Meat packaging good- use glove and sanitary surface

All customers are provided with a grill pack including clean plates, knives, and thermometer. Every station has handwashing with running water, pump soap, and disposable paper towels. Customers buy packaged meat or bring their own. ****WCHD suggest providing customers with minimum recommended internal cooking temperatures for meat*****

Discussed no bare hand contact with ready to eat foods.

Discussed employee exclusion for 48 hours after vomiting and/or diarrhea symptoms stop.

Facility has not had employee(s) take and fail one of the recognized CFPM exams in the past year.

Date by which the above violations must be abated: **7 days (6/22/2016)**

Failure to comply with this notice may result in immediate suspension of the Permit to Operate. An opportunity for an appeal will be provided if a written request for a hearing is filed with the Health Authority within the period of time established in this notice for the correction of violations.

2209-00420 - [1] Clean, soiled linen properly stored

2209-00430 - [1] Raw / undercooked food advisory, liquor birth defect warning signs posted as required

Official Notice:

General Comments:

2209-COMM - All violations from previous inspection have been abated-
Potentially forgotten food in downstairs fridge has been removed and fridge has been cleaned;
CFPM onsite during inspection;
Utensils have been moved from segregated bustub to individual cups;
Bleach test strips obtained (ensure quat test strips are obtained)
Thermometers available in upstairs reach in units
Employee food no longer stored in customer accessible reach in

Facility will be certifying several more CFPMs to comply with the risk level III requirements (a CFPM must be onsite during all hours of potentially hazardous food preparation and/or service). When employees have completed CFPM exam, fax or email certificates to WCHD.

Date by which the above violations must be abated: **N/A**

Failure to comply with this notice may result in immediate suspension of the Permit to Operate. An opportunity for an appeal will be provided if a written request for a hearing is filed with the Health Authority within the period of time established in this notice for the correction of violations.

HEALTH DISTRICT**
ENHANCING QUALITY OF LIFE

October 26, 2016

Evan MacKenzie, Assistant Planner
City of Reno
Community Development Department
P.O. Box 1900
Reno, NV 89505

RE: Pignic Pub & Patio; APN 011-155-10
Special Use Permit; LDC17-00030

Dear Mr. MacKenzie:

The Washoe County Health District, Environmental Health Services Division (Division) Engineering has reviewed the above referenced project. Approval by this Division is subject to the following conditions:

1. The proposed alteration of work processes may require additional processes to be approved by the WCHD, in order to operate as proposed.
 - a. Currently this facility is no approved for catering or the ability to cook most food items. The existing processes are allowed for Patron Cooking only.
 - b. An advisory inspection may be requested of the WCHD (fees apply) to meet on site and discuss proposed operation to determine if the existing facilities would meet the requirements; OR
 - c. You may make an appointment to come into our office to discuss the proposed operational changes to determine if there will be additional requirements necessary in order to approve the operational changes.
 - d. Please review the DBOH Regulation Governing Food Establishments, specifically Chapter 120 – Barbecues, to determine the necessary requirements for operation.
 - i. <https://www.washoecounty.us/health/files/regulations>

If you have any questions or would like clarification regarding the foregoing, please contact Wes Rubio, Senior Environmental Health Specialist at wrubio@washoecounty.us regarding all Health District comments.

Sincerely,

Bob Sack, Division Director
Environmental Health Services Division
Washoe County Health District

FOOD ESTABLISHMENT OFFICIAL INSPECTION REPORT

DBA/Name: Risk Category Type: Address: Person In Charge:	Pignic Pub + Patio 235 Flint St Kate Olson	City/Zip: Reno	Date: 2/1/2017 Permit #: F140409
--	--	-------------------	---

Observations and Corrective Actions Continued:

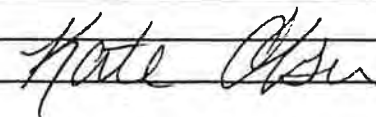

Pignic has been hosting weekly potlucks for the public ("Spice Nights") where anyone can and is encouraged to bring a dish to share. Since food prepared/brought from people's own homes does not constitute an approved source, all hosted public potlucks must cease immediately.

In order for Pignic to ~~host~~ serve food to the public, the food must come from an approved source - this includes Pignic vendors, ~~and~~

Owner - Ryan Goldhammer (775) 232-7877

If Pignic serves food that does not come from an approved source, further enforcement may occur - potentially leading to permit suspension/revocation.

Failure to abate violation required in this notice may result in immediate suspension of the Permit to Operate. An opportunity for an appeal will be provided if a written request for a hearing is filed with the Health Authority within the period of time established in this notice for the correction of violations. PIGNIC Pignic Pub & Patio

The idea is to have a clubhouse where all of our great songwriters can get together between tours to share a meal, debut new material, or polish up classics. Mostly it's about getting together and celebrating the community we are all building - sort of like a family dinner once a week, that's where the potluck idea came from', said Spike McGuire, the Spike behind Open Spike Night and host of Loud As Folk.

Join us at Pignic Pub & Patio tonight for the first weekly Open Spike Night, our new songwriter's social that will happen every Tuesday starting at 7 pm!

Bring a dish to share and your best instrument for what is sure to be an inspiring new way to bring our awesome community of local songwriters together. The format will differ from your traditional open mic night, so come ready for a creative new way to learn and share music with one another!

FOOD ESTABLISHMENT OFFICIAL INSPECTION REPORT

DBA/Name: Risk Category Type: Address: Person In Charge:	Pignic Rob + Patio 235 Flint St Ryan Goldhammer	City/Zip: Reno	Date: 2/13/17 Permit #: F140409
--	---	-------------------	--

Observations and Corrective Actions Continued-

WCHD Regulations governing Food Establishments section 050.010 states that all "Food must be obtained from approved sources."

Pignic has advertised a potluck - asking private individuals to bring food and share it. Private individuals who do not have an approved WCHD Food Permit or Cottage Food Permit do not constitute an approved source. Providing food not from an approved source is in violation of WCHD regulations and may lead to permit suspension and/or revocation.

Facility must discontinue allowing food from non-approved sources to be shared potluck style - only food from approved sources may be served this way. All food for tomorrow's event (2/14/2017) must be obtained from an approved source and prepared in the permitted facility.

While onsite, WCHD observed complimentary charcuterie boards presented on the bar without any means for people to grab pieces without contaminating other items. All "family style" presented foods must be accompanied by tongs/troughpicks/spoons in order to ensure food can be grabbed in a sanitary manner. Communal boards without this are not allowed - food must be instead served "bullet style" with appropriate utensils. This applies to all foods served this way, and must be followed during the event on 2/14/17.

Failure to abate violation required in this notice may result in immediate suspension of the Permit to Operate. An opportunity for an appeal will be provided if a written request for a hearing is filed with the Health Authority within the period of time established in this notice for the correction of violations. (Reference: NRS 446.895)

Details

Open Spike Night is for lovers and we've got something special in store for all you sexy birds!

We are transforming the bar into a dining room to the nines with candle-lit tables with white linens accompanied with love songs by the one and only Spike McGuire from 7p-8p. Then we open up the mic for others. Love songs and ballads highly encouraged!

Happy Hour Wine, Draft, & Spirit pricing will be extended 'til 9pm.

Spaghetti and Meatballs w/ Vegan Marinara will be provided by Pignic Pub & Patio. Sides will be provided by guests who chose to attend. Spaghetti Potluck will be followed by a Chocolate Fondue Bar also provided by Pignic Pub & Patio. Please sign up to bring items for side dishes and fondue bar in the comments below!

Caesar Salad:

- Dressing (1 bottle)
- Romaine Lettuce (40 oz.)
- Red Onion (2 medium)
- Shredded or Shaved Parmesan (6-8 oz.)
- Croutons (2 6oz. bags)

Garlic Bread: (2 loaves / 4 halves)

- 1 loaf (2 halves)
- 1 loaf (2 halves)

Assorted Fruit Tray: (Quantity 2)

- 1 Assorted Fruit Tray
 - 1 Assorted Fruit Tray

FOOD ESTABLISHMENT OFFICIAL INSPECTION REPORT

DBA/Name: Risk Category Type: Pignic Pop. Patio	Date: 2/14/17
Address: 235 Flint St	City/Zip: Reno
Person In Charge: Ryan Goldhammer	Permit #: F140409

Observations and Corrective Actions-Continued:

This inspection is to follow-up from inspection on 2/1/17 and 2/13/17 regarding serving food only from approved sources and disallowing food to be served potluck style when prepared in an unpermitted facility.

Observed food for the event being prepared by Pignic employees in permitted facility. All food was purchased from approved sources. Saw the following food items: cut romaine lettuce, pre-cut melon, fully-cooked commercially prepared meatballs, commercially prepared sauce, and garlic bread. Ensure all food served at Pignic hosted event comes from an approved source and is served with appropriate utensils - see inspection form from 2/13/17 for details.

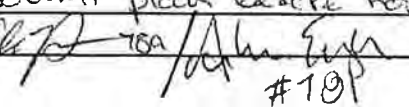

Observed romaine lettuce being chopped with direct bare hand contact. Ensure that all ready-to-eat foods (those that do not have a "kill step") are never touched by bare hands during preparation and/or service - instead, use a barrier such as gloves, tongs, sprigs, etc. Corrected onsite.

Ensure meatballs and marinara sauce are heated to at least 135F and are held at at least 135F throughout duration of event.

Discussed Pignic's plan to submit an operational event plan for future events. Operator will submit to WCTID prior to future events.

78 customers bring food to serve potluck style during 2/14/17 event, operator must ensure that this food is not placed in customer service area or served to customers.

Failure to abate violation required in this notice may result in immediate suspension of the Permit to Operate. An opportunity for an appeal will be provided if a written request for a hearing is filed with the Health Authority within the period of time established in this notice for the correction of violations. (Reference: NRS 446.895)

Comments:

Discontinue all cooking activities until an operational plan is submitted for use of outdoor BBQs as part of food establishment. See chapter 120 of the regulations of the Washoe County District Board of Health Governing Food Establishment for BBQ operational plan requirements.

Facility only permitted for limited food preparation such as re-packaging raw meats for patrons, preparing charcuterie boards from pre-package, pre-cut ingredients. Additional construction requirements and equipment installation will be required prior to expanding menu.

A re-inspection to verify compliance status of critical items will be conducted by 2/28/17. A meeting with the owner to discuss compliance dates for construction items must be scheduled by 2/28/2017.

Temperatures Observed: Item/Location/Temperature

Observations and Corrective Actions:

Item #	Violation
1	No CFPM certificate posted. PIC not aware of food safety practices such as checking dish machine sanitizer, ensuring RTE, PHF foods are date marked and not held past 7 days.
8a	Required to have a stand alone hand sink. Cannot utilize prep sink as a hand sink.
14	Observed clean serving utensils stored with visible food debris.
21a	Observed plastic zip lock bag with cooked rice, one zip lock bag of cooked chicken, and one zip lock bag of cooked beef unlabeled- operator could not verify preparation date. All product discarded. Ensure potentially hazardous foods that are prepared onsite and in the ready-to-eat form are date labeled and not held for more than 7 days.
25a	Observed deodorant and clothing, starch, and rubbing alcohol stored above clean dishes and single use articles- COS.
27	Observed evidence of rodent infestation- mouse dropping and traps. Per operator, pest control service has been onsite within the last few days. Ensure openings are protected and food debris are cleaned up to prevent further infestation.
37	Observed box of food products (bread and fruit) stored on ground. Ensure all food products are stored at least 6" above the ground to prevent contamination. COS.
42	Post with knife storage must be smooth and easily cleanable- same for all posts with food prep and storage nearby.
	Observed glasses and single service utensils stored on ground. Ensure all utensils, equipment, linens and single use articles are stored at least 6" above the ground.
43	Observed glasses and single service utensils stored on ground. Ensure all utensils, equipment, linens and single use articles are stored at least 6" above the ground.
45	Discontinue use of residential refer for storage of any potentially hazardous food- drinks only.
46	All floors and surfaces in kitchen, storage, prep, and walk in refer must be cleaned and a cleaning schedule provided.

47 Must install tray under all sewer pipes over kitchen, prep, or wash areas. Tray must extend out of service or prep area.

50 Discontinue use of prep table by brick column. All walls and surfaces must be smooth and easily cleanable.

All shelving units/ storage shelving is required to be smooth and easily cleanable- no bare wood.

Remove all non-essential items for kitchen from the area- cannot utilize kitchen/ food storage/ prep as a separate storage for non food or food prep items.

All walls and surfaces in kitchen area must be smooth and easily cleanable- or area designated for where kitchen prep area is limited- must be approved by WCHD/

All holes in walls, floors, and ceiling must be patched and sealed so that they are smooth and easily cleanable.

Spray foam observed in walk in must be smooth and properly sealed and patched- no duct tape or foam allowed.

Walk in condensate line must drain to floor sink with air gap.

51 Repair walk in light- light must be adequate enough to identify food product. Light must be shielded.

Failure to abate violation required in this notice may result in immediate suspension of the Permit to Operate. An opportunity for an appeal will be provided if a written request for a hearing is filed within the period of time established in this notice for the correction of violations. (Reference: NRS 446.895)

Re-Inspection Date (on or after): Re-inspection to verify long-term corrective actions by 2/28/2017

Key: IN = In Compliance ; N/A = Not Applicable; N/O = Not Observed; OUT = Out of Compliance; COS = Corrected On-Site; R = Repeat Violation

Temperatures Observed: Item / Location / Temperature

Observations and Corrective Actions:
 1) No CFPM certificate posted, PIC not aware of food safety practices such as checking dish machine sanitizor, ensuring RTE, PTH foods are date marked & not held past 7 days.
 2) Observed clean sawing utensils stored with visible food debris.
 21a) Observed plastic zip lock bag with cooked rice, date zip lock bag of cooked chicken and one ziplock bag of cooked beef unlabeled - operator could not verify preparation date - All product discarded. ensure potentially hazardous foods that are prepared onsite and in the ready-to-eat form are date labeled & not held for more than 7 days.

Failure to abate violation required in this notice may result in immediate suspension of the Permit to Operate. An opportunity for an appeal will be provided if a written request for a hearing is filed with the Health Authority within the period of time established in this notice for the correction of violations. (Reference: NRS 446.895)

Comments:

Permit is suspended until further notice. Facility may not prepare any food, wash any dishes, or perform any permitted activities in downstairs kitchen until permit is reinstated. Operating without a permit is unlawful and may result in criminal misdemeanor citation. Facility must call WCHD for inspection in order for permit to be reinstated.

The following construction items must be resolved:

- Base coving must be installed to deny pest entry ✓
- Evaporation pan for walk-in cooler must be repaired so it does not leak and hose should be situated so its not submerged ✓
- Interior light in walk-in must be repaired/replaced ✓
- Walls must be smooth, sealed, and easily cleanable with FRP or pain ✓
- Fix and/or seal all holes in walk-in ✓
- All concrete in kitchen/ washing/ prep/ storage areas must be sealed and non-porous ✓
- All walls where chest freezer is to move to must be smooth, sealed, and easily cleanable and have base coving ✓
- Silicone (or smooth and seal) catch tray under pipe to ceiling ✓
- All nonessential items must be removed (including kitchen prep items that facility has no operational use for) ✓

Facility must post CFPM certificate in facility.

Serving utensils and clean items must be stored in a way that they are not contaminated during storage.

Kitchen must be cleaned on a regular schedule once all construction is done and operational.

Training plan and SOPs must be established for cleaning, open and close, etc.

Facility is required to submit an operational plan for outdoor BBQ (and pay all applicable fees) if wishes to cook for customers outside.

This inspection, and all future inspections, will be charged.

Temperatures Observed: Item/Location/Temperature

Observations and Corrective Actions:

Item #	Violation
1

Person In Charge:	Ryan Goldhammer		

Observations and Corrective Actions Continued:

Per 86 - Hand sink is not connected to water or drain. Hand sink must be functional with hot and cold running water, paper towels, and pump hand soap prior to permit re-insitment.

The following construction items must be resolved:

- Base covings must be installed to every post entry
- Evaporated pan for walk-in cooler must be repaired so it does not leak and hose should be situated so its not submerged
- Interior light in walk-in must be repaired/replaced
- Walls must be smooth, sealed, and easily cleanable with FRP or paint
- Fix and/or seal all holes in walk-in
- All concrete in kitchen/washing/prep/storage areas must be sealed and non-porous
- All walls where chest freezer is to move to must be smooth, sealed, and easily cleanable and have base coving
- Silicone (or smooth and seal) catch tray under pipe to ceiling
- All non-essential items must be removed (including kitchen prep items that facility has no operational use for)

Facility must post CFPM certificate in facility.

Serving utensils and clean items must be stored in a way that they are not contaminated during storage.

Kitchen must be cleaned on a regular schedule once all construction is done and operational.

Training plan and SOPs must be established for cleaning, open + close, etc.

Facility is required to submit an operational plan for outdoor BBQ (and prep all applicable areas) if wishes to cook for customers outside.

This inspection, and all future inspections, will be changed

Failure to abate violation required in this notice may result in immediate suspension of the Permit to Operate. An opportunity for an appeal will be provided if a written request for a hearing is filed with the Health Authority within the period of time established in this notice for the correction of violations. Observations and Corrective Actions:
Permit is suspended until further notice. Facility may not prepare any food, wash any dishes, or perform any permitted activities in downstairs kitchen until permit is reinstated. Operating without a permit is unlawful and may result in criminal misdemeanor citation. Facility must call WHD for inspection in order for permit to be reinstated.

Failure to abate violation required in this notice may result in immediate suspension of the Permit to Operate. An opportunity for an appeal will be provided if a written request for a hearing is filed with the Health Authority within the period of time established in this notice for the correction of violations. (Reference: NRS 446.895)

Re-Inspection Date (on or after): Call for inspection (give 24 hours notice)

On Shift Grillyard Maintenance Procedures

- Sanitation buckets must be changed every 2-3 hours!!
- Remove and replace any full bus tubs
- At the beginning of shift change, check the fridge temperature (32-40 degrees fahrenheit)
- Instruct the guest that are cooking where sanitation buckets, hand sinks, fridges, bus tubs, paper towels, and trash cans are.
- Wipe down any dirty areas with a sanitation towel
- If you see any guest engaging in any unsafe food activities please instruct them how to be more food safe, and provide them with a Guest Grillyard Guide.
- Sweep up any hazards such as broken glass!
- Bring any empty, dirty or unattended glassware to the bar to be cleaned

Closing Grillyard Procedures

- Make sure all fridges are empty and clean out with hot soapy water, then a sani towel
- Scrub off all food preparation, cooking areas, and hand sinks with the hot soapy water
- Then follow over all the same surfaces with the sanitation water/ towel.
- Make sure all grills are off, empty, and scrubbed
- Empty all trashes and replace with new liners
- Bring all bus tubs, dirty dishes/ glassware and sanitation buckets are brought inside to be washed
- Put all used towels into the soiled linen bag
- Remove, empty, and clean all ash trays.
- Sweep up any hazards such as broken glass!
- Turn off the lights and kitchenettes

Guest Grillyard Guide

Some Food Safety and Cleanliness Procedures

Clean:

Keeping hands, surfaces, and utensils clean is an essential step towards avoiding the transfer of harmful bacteria to your food. We provide sanitation buckets and towels throughout the grillyard. Please use to disinfect any area that you have had raw meat, and for general cleanliness throughout the food preparation process

As always, it is important to wash hands before preparing food for consumption, but it is also essential to wash hands before and after handling raw meat and poultry to prevent the transfer of harmful bacteria. In the grillyard you will find hand sinks with antibacterial soap beside them. After thoroughly washing, please dry hands with the disposable paper towels provided.

Separate:

Keep raw meats and poultry separated from cooked food and other surfaces. Use separate utensils, plates, and cutting boards for raw and cooked foods. Discard any marinades or sauces that have come in contact with raw meat juices to avoid cross contamination.

When transferring food in a cooler to the BBQ, consider securely wrapping and separating all raw meat from other items to prevent immediate contact and to avoid raw meat juice from leaking into the cooler. You may even want to consider bringing a smaller cooler to be dedicated for holding only to-be-cooked foods.

Cook:

Cook all food to the recommended internal temperature, using a food thermometer, (provided in your Pignic grillbox) to ensure that the necessary temperature is met. It is important to use a thermometer for meats as it tends to brown quickly, leaving the insides undercooked with an appearance of being fully cooked. The USDA recommends cooking all raw beef, pork, lamb, and veal (steaks, roasts and chops) to 145°F and an allowed rest of at least three minutes before carving and consuming. Cook all raw ground beef, pork, lamb, and veal to an internal temperature of 160°F. Cook all poultry to a minimum internal temperature of 165°F.

Is it important to reheat fully cooked meats, such as the traditional hotdog? Yes! Grill to 165°F or until steaming hot.

Chill:

Basement Cleaning and Upkeep Procedures

Daily

- Check chemical levels of the dishwasher!!!!
- Make sure hand sink is clean, and stocked with anti-bacterial hand soap, and disposable paper towels
- Disinfect all prep surfaces with hot soapy water then with sanitation water and towel
- Wipe down walls with sanitation towel wherever there are splashes
- Wash all dirty dishes through dish line
- Clean out ice buckets. Store properly
- Let dishes air dry, then put away in their designated area
- Remove all floor mats
- Sweep floor ensuring to get under all shelving
- Mop floors ensuring to get under all shelving
- Empty all trash and replace with a new liner
- Clean, empty and dry dish line

Weekly

- Wash and sanitize walk-in
- Delime sinks and faucets
- Use drain cleaners, and clean floor drains
- Wash trash can interior and exterior
- Wash floor mats

Monthly

- Clean ice machine (can be done every several months)
- Wash walls and ceiling to remove any buildup
- Defrost, clean, and sanitize freezers

Grillyard Opening Procedure

- First!! Turn on all breakers and lights. This is the first step to ensure the fridges drop down to the correct temperature. (32-40 degrees fahrenheit)
- Grab one bucket full of hot soapy water and a clean towel. Grab a sanitation bucket with sani fluid and a clean towel.
- Scrub off all food preparation, cooking areas, and hand sinks with the hot soapy water
- Then follow over all the same surfaces with the sanitation water/ towel.
- Sweep grill yard, sun deck, fire pit, and garden area
- Wipe down all tables, chairs, and benches.
- Place out clean ash trays in non-food preparation or grilling area
- Provide a fresh sanitation bucket to each kitchenette/ grill area
- Provide bus tubs for dirty dishes to each grill/ kitchenette area.
- Make sure each handwashing station is clean and equipped with antibacterial handsoap, disposable paper towels, and a trashcan.
- Right before opening, check the thermometer located in each fridge to make sure it is between 32-40 degrees fahrenheit. If it is not put an out of order sign on it till it reaches the correct temperature.

OPENING / CLOSING BAR PROCEDURES

Opening

- Wipe Out and Sanitize Ice Bin.
- After 5 minutes use an approved food safe ice bucket to fill the ice bin.
- Use an ice bucket in between the 2 wells with ice for quick grab ingredients.
- Also 1 bucket for dumping ice, straws and fruit. Do not dump in hand sinks.
- Make sure there is a sanitized ice scoop for chip ice in ice bin.
- Use tongs to pull large format cubes from freezer storage. Put in clean metal six pan. Insert into ice in ice bin. Use small tongs for serving.
- Wash and cut fruit for garnishing using sanitized bar knife and cutting board. Use sanitized garnish jars. Have small tongs for serving garnishes.
- Pull Juices and Simple syrup, from Fridge wipe down and put on ice in the side rails in ice bin.
- Prime Dishwasher for 30 seconds or till no air bubbles are present. Run dishwasher, test liquid with test strip. Looking for dark purple.
- Frequently wash hands in between handling drinks and dirty dishes.

Closing:

- Pour Piping Hot Water down all drains including draft tray.
- Wipe down and sanitize all surfaces. Including beer tap spouts.
- Put caps over tap spouts.
- Burn Ice in ice bin with hot water. Cover with side rail containers.
- Fill one rail container with soda water. Pull spout of guns and soak.
- Empty all trashes and re bag cans.
- Wrap all fruit bowls and jars in saran wrap and put in refrigerator.
- Wipe down bottles.
- Sanitize all bar mats, tools, cutting board, etc in glass sanitizer. Then set out to air dry.
- Drain dishwasher, pull plug and leave door open.
- Put up bar stools.

Case Number: ENF17-C02693
Citation Number: ENA17-NOV00874
Subject Property: 235 FLINT

Important - Read the Following Carefully

All necessary permits must be secured and completed to correct the violations set forth in this notice.

Reinspection Fee - The Reno Municipal Code Section 1.05.030 provides for the recovery of costs incurred by the city for all reinspections. A reinspection fee will be levied for all reinspections required after the date of this notice until full compliance with this notice. If full compliance is not achieved by the date above mentioned correction date, you will be charged an initial reinspection fee of **\$100.00**. All future required reinspection fees are **\$45.00** each.

Administrative Citation - Reno Municipal Code Section 1.05.200 provides for the issuance of administrative citations for Municipal Code Violations. There are four levels of citations that can be issued progressively for a violation. The fines, as indicated above, are \$100.00 for the first citation, \$250.00 for the second citation and \$500.00 for the third and subsequent citations for the violation(s) of the same ordinance within one year upon non-commercial properties. Commercial properties shall be subject to \$1000.00 for the forth and subsequent citations for violation(s), of the same ordinance within one year. These fines are cumulative and citations may be issued for each day the violation exists.

Consequences of Failure to Correct Violation(s) - Failure to correct the violation(s) can lead to further administrative actions such as the remedies detailed in Chapter 1.05 of the Reno Municipal Code or criminal prosecution as a misdemeanor with a maximum penalty of six months in jail and \$1000.00 fine.

Rights of Appeal - You have the right to appeal this administrative citation within ten (10) business days from the date of the citation. An appeal form can be obtained from the City Clerks Office located at 1 E. First Street - 2nd floor. The cost for the appeal is \$50.00. For directions call 334-2030. A properly filed appeal will result in an administrative hearing. A full description of the hearing process for the City's administrative hearings for Municipal Code violations and your rights in that process are found in the Reno Municipal Code Chapter 1.05 Article VI (Copies of the current Municipal Code can be electronically accessed at www.municode.com or you may contact

ENF17-C02693

Case Number: ENF17-C02693
Citation Number: ENA17-NOV00874
Subject Property: 235 FLINT

Failure of any person to properly file a written appeal within ten (10) business days from the date of this citation shall constitute a waiver of his or her right to an administrative hearing and adjudication of the administrative citation or any portion thereof and the total amount of the fine.

General Operational Plan, Outdoor Food Establishment & BBQ Operational Plan

General Information

Name: Pignic Pub and Patio

Address: 235 Flint Street, Reno, NV 89501

Permit Number: ___F140409___

Hours of Operation:

Monday: 3pm - 12am

Tuesday: 3 pm - 12am

Wednesday: 3pm- 12am

Thursday: 3pm - 1am

Friday: 3pm - 3am

Saturday: 12pm - 3am

Sunday: 12pm - 12am

Seating Capacity: Interior= 49 (max capacity) Outdoor= 49

STANDARD OPERATING PROCEDURES:

Person/People in charge (PIC), are the owners Ryan Goldhammer, Trevor Leppek, and the Bar Manager Annalisa Suarez. They will be in charge of ensuring all employees are trained on the operation plan and that said plan is being followed as outlined.

Employee Hand Washing:

Use designated hand washing sinks for hand washing only. Do not use food preparation, utility, and dishwashing sinks for hand washing.

Provided:

- Warm (at least 100 °F) running water
- Liquid soap in a fixed dispenser
- Disposable towels
- Waste container conveniently located near the hand washing sink or near the door in restrooms.

Wash hands:

- Before starting work
- After touching hair, face, or body
- After using the toilet room
- After sneezing, coughing, or using a handkerchief or tissue
- After smoking, eating, drinking, or chewing gum or tobacco
- After touching dirty dishes, equipment, or utensils
- Before changing tasks to prevent cross-contamination

- During food preparation as often as necessary to remove soil and contamination
- After handling raw meats, poultry, or fish
- When moving from one food preparation area to another
- Before putting on or changing gloves
- After removing gloves when working with raw animal products
- **No Bare Hand Contact with Ready To Eat (RTE) Foods**
Food handlers may use single service gloves, tongs, spatulas, serving spoons, deli paper and/or toothpicks to prevent contact with ready to eat food items with bare hands during food preparation and/or service.
 - After any clean up activity such as sweeping, mopping, or wiping counters
 - After handling trash
 - After handling money
 - After any time the hands may become contaminated

Follow proper hand washing procedures as indicated below:

- Wet hands and forearms with warm, running water at least 100 °F and apply soap.
- Scrub lathered hands and forearms, under fingernails, and between fingers for at least 15 seconds.
- Rinse thoroughly under warm running water.
- Dry hands and forearms thoroughly with single-use paper towels.
- Turn off water using paper towels.
- Use paper towel to open door when exiting the restroom.

Corrective Action:

- Retrain any employee found not following the procedures in this SOP.
- Ensure employees that are observed not washing their hands at the appropriate times are required to immediately wash their hands using the proper procedures
- Ensure employees that are observed contacting ready-to-eat food with bare hands are retrained to ensure proper procedures to avoid bare hand contact with ready-to-eat foods and proper hand washing procedures.

This procedure applies to all persons who may be a Person in Charge (PIC)

Illness:

- Food employees shall report to Person in Charge when they have a symptom caused by illness, infection, or other source that is:
 - Associated with, diarrhea, vomiting or other acute gastrointestinal illness
 - Jaundice
 - Sore throat with fever
 - A boil, infected wound or other lesion containing pus that is open or draining. If located on the hands or wrists, a finger cot that protects the lesion and a single use glove must be worn.
 - Lesions on exposed portions of the arms must be protected by an impermeable cover.

- Employees with gastrointestinal symptoms (vomiting and/or diarrhea) will be excluded for a minimum of 48 Hours after symptoms have stopped.
- Employees with jaundice will be excluded until laboratory results indicate the individual is not currently infected with Hepatitis A.
- Employees with acute respiratory infection or sore throat with fever will be excluded until symptom free. Employees could be re-assigned to activities so that there is no risk of transmitting a disease through food.

Cuts, Abrasions and Burns:

- Bandage any cut, sores, rash, lesion, abrasion or burn that has broken the skin.
- Wear disposable gloves to cover bandages on hands. Change as appropriate.
- Inform Person in Charge of all wounds.

Corrective Action:

The foodservice manager will require all employees with boils, burns, cuts and infected wounds on hands, wrists and exposed portions of arms to wear a non-penetrable cover (such as a finger cot) and a glove. The manager may assign other duties that do not involve food preparation.

Cleaning & Sanitization:

Policy:

All flatware, serving dishes, and utensils are washed, rinsed, and sanitized after each use. The machine for warewashing will be checked prior to each meal period to ensure that it is functioning properly.

Procedure:

Employees who use the warewashing machine will be responsible for knowing how to use the machine, document its use, and properly maintain it after use.

Steps include:

- Fill dish machine tanks prior to use, using the automatic filler.
- Run dish machine after being filled, but prior to being used, until it reaches 110°F.
- Check that soap and chemical sanitizer dispensers have enough products for the day's use.
- Scrape and rinse all items before placing them in the machine.
- Load the dishwasher racks. Avoid overloading or improper loading.
- Place rack in machine and close door. Check that the wash cycle is maintaining at least 120°F and runs for a minimum of 2 minutes.
- Record the temperatures for the wash and rinse cycles and the water pressure on the Chemical Dish Machine Monitoring Form. Temperatures and pressure should be at least: Wash - 120°F and runs for a minimum of 2 minutes, Rinse - 75-120°F, Minimum water pressure for final rinse should be at 15-25 psi.
- Check sanitizer concentration using appropriate test strips in accordance with the "test strip guide" located on the test strip container.
- Run racks of trays, dishes, and flatware through the dish machine.
- Use clean hands, remove dishes from machine, and allow to air dry.

Also See All Grill-Yard Attachments.

Cooking & Reheating Potentially Hazardous Foods:

Train foodservice employees on using the procedures in this SOP, including Using and Calibrating Thermometers.

Follow Wahoe County Health District Regulations.

If a recipe contains a combination of animal products, cook the product to the highest required temperature.

Cook or reheat products to the following temperatures:

a. 145 °F for 15 seconds

Whole muscle beef, whole muscle pork and commercially raised game animals

b. 155 °F for 15 seconds

Ground products containing beef or pork

Beef or pork that has been mechanically tenderized or injected

c. 165 °F for 15 seconds

Poultry

Food previously cooked and cooled at this facility that is reheated for hot holding

d. 155 °F for 15 seconds

Food commercially processed that will be stored in hot holding unless the manufacture specifies a higher cooking temperature

Fresh, frozen, or canned fruits and vegetables that will be stored in hot holding.

e. 130 °F for 112 minutes

Whole beef roasts, corned beef roasts, pork roasts and cured pork roasts (including ham)

(PIC Monitoring)

Use a clean, sanitized, and calibrated probe thermometer, preferably a thermocouple.

Avoid inserting the thermometer into pockets of fat or near bones when taking internal cooking temperatures.

If using a dial thermometer, make sure the thermometer is inserted into the product past the mark on the probe. If unable to do so due to product size, use a digital thermometer or thermocouple.

Take at least two internal temperatures from each batch of food by inserting the thermometer into the thickest part of the product, which usually is in the center.

Corrective Action:

Retrain any foodservice employee found not following the procedures in this SOP.

Holding Hot and Cold Potentially Hazardous Foods For Service:

- Train foodservice employees who prepare or serve food about proper hot and cold holding procedures. Include in the training a discussion of the temperature danger zone.
- Follow State or local health department requirements regarding required hot and cold holding temperatures.
- Hold hot foods at 135 °F or above; and
- Cold foods at 41 °F or below.
- Preheat countertop warmers, grills, and smokers.

(PIC Monitoring)

Use a clean, sanitized, and calibrated probe thermometer to measure the temperature of the food.

Take temperatures of foods by inserting the thermometer near the surface of the product, at the thickest part, and at other various locations.

For Hot-Held foods for service:

- Verify that the air/water temperature of any unit is at 135 °F or above before use.
- Reheat foods in accordance with the Reheating Potentially Hazardous Foods.
- All hot potentially hazardous foods should be 135 °F or above before placing the food out for display or service.
- Take the internal temperature of food if holding in a grill / smoking unit or countertop warmer and at least every 2 hours thereafter.

For Cold-Held foods for service:

- Verify that the air/water temperature of any unit is at 41 °F or below before use.
- All cold potentially hazardous foods should be 41 °F or below before placing the food out for display or service.

For Cold foods in storage:

- Take the internal temperature of the food before placing it into any walk-in cooler or reach-in cold holding unit.
- Verify that the air temperature of any cold holding unit is at 41 °F or below before use.

Corrective Action:

For Hot Foods:

- Reheat the food to 165 °F for 15 seconds if the temperature is found to be below 135 °F and the last temperature measurement was 135 °F or higher and taken within the last 2 hours. Repair or reset holding equipment before returning the food to the unit, if applicable.
- Discard the food if it cannot be determined how long the food temperature was below 135 °F.

For Cold Foods:

- Rapidly chill the food using an appropriate cooling method if the temperature is found to be above 41 °F and the last temperature measurement was 41 °F or below and taken within the last 2 hours:
 - Place food in shallow containers (no more than 4 inches deep) and uncovered on the top shelf in the back of the walk-in or reach-in cooler
 - Stir the food in a container placed in an ice water bath
 - Add ice as an ingredient
 - Separate food into smaller or thinner portions
 - Repair or reset holding equipment before returning the food to the unit, if applicable.
 - Discard the food if it cannot be determined how long the food temperature was above 41 °F.

OUTDOOR PREPARATION OPERATIONAL PLAN:

Prepared / Displayed Foods: Pignic Pub and Patio Deli

Estimated Volume: Food Package bi-weekly. 8-10 of each deli item

Macaroni salad- Savemart Deli
Potato salad- Savemart Deli
Raw Asparagus- Costco
Raw Bell Pepper- Costco
Raw Corn on the cobb- Costco
Precooked Evergood Louisiana Hot Links- Costco
Pre Seasoned tri-tip- Costco

Preparation:

All food is pre-prepared so very little food preparation is necessary.

- Macaroni / Potato Salad is portioned out into small deli cups and dated.
- Asparagus, Bell Pepper, and Corn in wrapped and dated.
- Seasoned tri-tip is trimmed into smaller sections based on weight. All raw meat is cut on the designated cutting boards, wrapped and dated.
- Precooked Evergood Hot Links are wrapped and dated.

All food products are stored in the upstairs "deli" fridge, or in the downstairs walk-in.

Outdoor Food Preparation, Service, Transport, Storage and Display:

Estimated Volume: Per Event 50-60 guests

Smoked Bacon (for Bloody Marys):

Laid out in one layer on sheet pan, cooked in a pellet wood smoker preheated to 350° F. Cook for 20-30 minutes until crispy and at a temperature of 155°F. Transfer bacon to disposable towels on clean sheet pan to drain. Transfer said towel lined sheet pan to walking to rapidly cool. Once cooled transfer bacon into deli tub and label and date. Bacon will be stored on the bottom shelf of the bar garnish/juice fridge. Excess will be stored in downstairs walk-in fridge.

Pignic Menu Items for Special Events:

- Sausage Platter w/ Potato Salad and Grilled Vegetables
- Taco Bar w/ Chopped Beer, Pork, Chicken and Fresh Vegetables and Salsas
- Smoked Tri-Tip or Pork Loin w/ Roasted Vegetables and Green Salads
- Holiday Ham w/ Potatoes and Cooked Vegetables
- Pasta w/ Sauce and Green Salad
- Smoked Pork w/ Baked Beans and Coleslaw
- Grilled Hamburgers and Hot Dogs w/ Chili and Fresh Vegetables

All Pre-Cooked and Smoked Sausages:

Reheated on medium to medium high heat natural gas grill until internal temperature reaches 135° F, then kept hot in steam table for service. Any extra after event is individually wrapped, dated, and stored in metal container in the walk-in fridge.

Potato Salad:

Boil potatoes, strain, then cool in a ice bath. combine with selected condiments, spices, and fresh produce. Transfer to a clean metal bowl that is positioned into a larger container or bowl of ice. This is to keep cold for service. If there are any leftovers after event, transfer to deli tubs, date, label and store in walk-in fridge.

Whole muscle beef, pork, or commercially raised game (i.e. tri-tip, steaks, pork tenderloin, ect.)
Cook to 145°F for 15 seconds. Held at 135°F or higher on grill, in steam table, or in a crock pot.

Ground beef, pork, veal, or lamb (burgers, taco meat, ect.)
Cook to 155°F for 15 seconds. Held at 135°F or higher on grill, in steam table, or in a crock pot.

Poultry, (whole, pre-butchered, strips, ground):
Cook to 165°F for 15 seconds. Held at 135°F or higher on grill, in steam table, or in a crock pot.

Stuffing, Stuffed meat, stuffed fish, stuffed pasta and casseroles:
Cook to 165°F for 15 seconds

Ready to eat foods (green salads, slaws, ect.):
Chopped on a clean cutting board with a clean knife, combined and stored below 41°F

Guest Grill-Yard Guide:

Guests may prepare and cook their own food in the designated grill-yard. Guests may bring food from an outside source or purchase from the Pignic Deli.

Guests are provided with a Waiver Of Liability, as well as a the rules and guidelines outlined in the following guide. Additionally, they are provided with Washoe County temperature guide as outlined in the Standard and Outside Grilling procedures.

Rules and Safety Hazards:

Guest will not light the natural gas, charcoal, or pellet smoker grill. A PIC or trained grillyard attendant will light the BBQ for the guest.

If while using the natural gas grill the flame goes out, guest must first turn off the gas, and then let the grill attendant or PIC know so they can re-light it for you.

- Guest may never leave a lit grill unattended.

- Pets are not permitted in grilling area.
- Never try to move a lit or hot grill, and remember the grill will stay hot for at least an hour after use.
- It is important when grilling to wear appropriate clothing.
 - Shirt tails, sleeves or apron strings must not dangle over the grill.
 - Long hair should be tied back
- IN CASE OF FIRE!
 - Never use water to put out a grease fire.
 - The only way to put out a grease fire is to "smother it".
 - In a pan that means covering it with a lid, damp cloth, baking soda, or a combination of the three.
 - In a grill the best thing to do is turn off the fire source, and shut the lid to smother it. If it is a charcoal grill first douse it with baking soda, and then cover.

Pignic Baskets:

Each grilling guest is given a "Pignic Basket" that includes a plastic lidded Tupperware you can use to hold, season, or marinate your raw meats.

Don't forget to keep your raw meats in the provided fridge to keep at a safe temperature (below 41°F), until you are ready to grill.

Also provided in your basket is a Knife, Cutting board, Calibrated Thermometer, Tongs, Grill Fork.

Clean:

- Keeping Hands, Surfaces, and Utensils clean is an essential step towards avoiding the transfer of harmful bacteria to your food.
- Sanitation buckets with towels are provided throughout the grill-yard.
- Sanitation water is changed out every 2 hours by staff.
- Utensils are mandatorily changed out every 2 hours by staff.
- Staff (including People In Charge) are available at all times to monitor, supervise, and offer guidance to patrons utilizing the grill-yard. Employees will check on the grill-yard guests at a minimum of every 15 minutes and will sanitize surfaces, check trashcans, and general procedures of guests who are grilling. Sanitization and hand washing is available for guests and employees at all times.
- Hard Surface Sanitizer is available at all times to guests. They may additionally use to disinfect any area that has had raw meat, and for general cleanliness throughout the food preparation process
- Guest must wash hands before preparing food for consumption, and before and after handling raw meat and poultry, .
- Hand sinks with antibacterial soap and paper towels are located at kitchenettes throughout the grill-yard
- After thoroughly washing your hands with warm water (at least 100°F), please dry hands with the disposable paper towels provided, dispose of the paper towels in nearby trash can.

Separate:

- Guest must keep raw meats and poultry separated from cooked food and other surfaces.
- Guest must separate utensils, plates, and cutting boards for raw and cooked foods.
- Guest must discard any marinades or sauces that have come in contact with raw meat juices to avoid cross contamination.
- Food stored in a cooler should have all raw meat securely wrapped and separated from other items.

Cook:

All food prepared by Guest is for their own consumption only and their invited guests.

- Guests are provided with recommended internal temperature guides, using a calibrated food thermometer, (provided in your Pignic grill box).
- Pignic staff will calibrate the thermometers before putting in a Pignic Basket.
- Guests will also be required to understand how to calibrate their own thermometer using the following guidelines:
 - Fill a glass with ice cubes, then top off with cold water.
 - Stir the water and let sit for 3 minutes.
 - Stir again, then insert your thermometer into the glass, making sure not to touch the sides.
 - The temperature should read 32°F (0°C). Record the difference and offset your thermometer as appropriate.
- Cook all raw beef, pork, lamb, and veal (steaks, roasts and chops) to 145°F and an allowed rest of at least three minutes before carving and consuming.
- Cook all raw ground beef, pork, lamb, and veal to an internal temperature of 155°F.
- Cook all poultry to a minimum internal temperature of 165°F.
- Reheat fully cooked meats, such as the traditional hotdog or sausage, grill to 165°F.
To properly read the temperature of your meat, stick the meat thermometer at least 2-inches in, and at the center of the thickest portion of the meat avoiding fat and bone. Take readings from both ends of the meat.

Chill:

- Be sure to handle leftovers appropriately by chilling promptly in shallow containers.
- Discard any food left out for more than two hours, or after one hour if outdoor temperatures are over 90°F.
- Pignic provides small fridges in the grillyard for Guest use.
- Guest must store perishable foods in these fridges.
- Grillyard attendant or PIC will check grillyard fridge temperatures daily

- If it is not between 32- 40°F an out of order sign will be placed on said fridge until it comes to the correct temperature or is repaired.

BBQ OPERATIONAL PLAN:

See Attached Site Plan.

Cooking Equipment:

- Stainless Steel Gas Grills: PGS Legacy and KitchenAide
- Stainless Steel Electric Smokers: (2) Green Mountain Grills
- Ceramic Charcoal Grills: Big Green Egg and Primo
- Kitchenette w/ Hand Sinks (3)
- Stainless Steel Prep Tables (3)

Grill-Yard Construction & Maintenance:

- Pavers with City Of Reno inspected grade towards floor sinks. All floor sinks are fed into grease interceptor. All hand sinks are located within 10' of all grilling stations and are fed into floor sinks and grease interceptor.
- BBQ cooking and support equipment is located on the premises of the property where the food establishment is located and it must not be more than 50 feet from the structure housing the establishment.
- BBQ Cooking Area and Support Equipment is cleaned daily to remain free of organic materials such as bark or pine needles and is kept separated from planters and other safety considerations.
- Storage for wood chips, charcoal, and other lighting materials are stored in a lidded storage bin
- 15 feet away from any grill.
- The grill-yard is monitored daily for vermin and insects and receives monthly service from a professional pest control team.
- Grills used by Pignic Pub & Patio staff shall be labeled as off-limits or suspended from guests during use. Grills will be cleaned by trained staff or PIC following the Grill Cleaning Procedures before and after use by Pignic Pub & Patio staff.

Grill Cleaning Procedures:

- Wearing work gloves, remove the grates and the metal plates under them. Place in a bucket of hot water and regular dish soap.
- Loosely cover the heating elements with a big piece of foil to protect them. With the grill brush, scrub the underside of the hood.
- Use the grill brush to scrub the inside walls above the elements. (Ash and debris will fall onto the foil.) Wipe the walls with a damp paper towel.
- Toss the foil and wipe the elements with the grill brush. Wipe metal plate and grate and drip pan with Hard Surface Sanitizer. Replace metal plate and grates and drip pan.
- Clean the exterior and the cabinet interior with stainless steel wipes or Hard Surface Sanitizer.

* Grills are cleaned daily and checked for functionality.

Grill-yard Opening Procedure

- First!! Turn on all breakers and lights. This is the first step to ensure the fridges drop down to the correct temperature. (32-40°F) .
- Check Hard Surface Sanitizer using chemical test strips. Hard Surface Sanitizer is a phosphate-free concentrated detergent, which provides effective sanitation.
Concentration / Dillution: pH 10.5 @ 1:64
- Grab one bucket full of hot soapy water and a clean towel. Grab a sanitation bucket with Hard Surface Sanitizer and a clean towel.
- Wash, rinse, and sanitize all food preparation, cooking areas, and hand sinks with Hard Surface Sanitizer.
- Then follow over all the same surfaces with the sanitation water/ towel.
- Sweep grill yard, sun deck, fire pit, and garden area
- Wipe down all tables, chairs, and benches.
- Place out clean ash trays in non-food preparation or grilling area
- Provide a fresh sanitation bucket to each kitchenette/ grill area
- Provide bus tubs for dirty dishes to each grill/ kitchenette area.
- Make sure each hand washing station is clean and equipped with antibacterial hand soap, disposable paper towels, and a trashcan.
- Right before opening, check the thermometer located in each fridge to make sure it is between 32-40°F. If it is not put an out of order sign on it till it reaches the correct temperature.

Closing Grill-yard Procedures

- Make sure all fridges are empty and clean out. Wash, rinse, and sanitize.
- Check Hard Surface Sanitizer using chemical test strips. Hard Surface Sanitizer is a phosphate-free concentrated detergent, which provides effective sanitation.
Concentration / Dillution: pH 10.5 @ 1:64
- Wash, rinse, and sanitize all food preparation, cooking areas, and hand sinks with the Hard Surface Sanitizer.
- Then follow over all the same surfaces with the sanitation water/ towel.
- Make sure all grills are off, empty, and scrubbed
- Empty all trashes and replace with new liners
- Bring all bus tubs, dirty dishes/ glassware and sanitation buckets are brought inside to be washed
- Put all used towels into the soiled linen bag
- Remove, empty, and clean all ash trays.
- Sweep up any hazards such as broken glass!
- Turn off the lights and kitchenettes

Basement Cleaning and Upkeep Procedures

Daily

- Check chemical levels of the dishwasher!!!!
- Make sure hand sink is clean, and stocked with anti-bacterial hand soap, and disposable paper towels
- Disinfect all prep surfaces with hot soapy water and then with hard surface sanitizer
- Wipe down walls with sanitation towel wherever there are splashes
- Wash all dirty dishes through dish line
- Clean out ice buckets. Store properly
- Let dishes air dry, then put away in their designated area
- Remove all floor mats
- Sweep floor ensuring to get under all shelving
- Mop floors ensuring to get under all shelving
- Empty all trash and replace with a new liner
- Clean, empty and dry dish line

Weekly

- Wash and sanitize walk-in
- Delime sinks and faucets
- Use drain cleaners, and clean floor drains
- Wash trash can interior and exterior
- Wash floor mats

Monthly

- Clean ice machine (can be done every several months)
- Wash walls and ceiling to remove any buildup
- Defrost, clean, and sanitize freezers

--	--	-------------------	--

Observations and Corrective Actions Continued:

This is a notice of violation you are required to obtain a temporary food permit any time you have a special event/temporary event according to the Regulations of the WCHD Board of Health governing Food Establishments, See 210.025. You are also required to cease and desist any outdoor cooking for customers until such time that your operational plan is approved.

Failure to comply with this notice will result in further legal action which may include, permit suspension, permit revocation or citation.

Cease & Desist customers from being their own food to cook as per See 200.055. Customers can only prepare or cook foods that are provided by the establishment. Submit an updated operational plan within 30 days (11/18/17). Failure to submit updated plan may result in permit suspension pending revocation. Additional permit required for outdoor food.

Discussed disallowing dogs on patio and necessary waiver/operational plan requirements.

Discussed options for appeal and variance processed.

Failure to abate violation required in this notice may result in immediate suspension of the Permit to Operate. An opportunity for an appeal will be provided if a written request for a hearing is filed with the Health Authority within the period of time established in this notice for the correction of violations. Ryan Goldhammer
Pignic Pub and Patio
235 Flint St.
Reno, NV 89501

RE: Permit Suspension
Pignic Pub and Patio Permit # F140409

NOTICE

Dear Mr. Goldhammer:

On October 18, 2017 Washoe County Health District (WCHD) staff met with you to discuss the operation of Pignic, Permit #F140409. At that time you were given a Cease and Desist in regards to allowing customers to bring in their own food products. You were also noticed to Cease and Desist all barbeque activities by Pignic, unless a Temporary Food Permit was obtained. A temporary abeyance was given in regards to the Cease and Desist for not allowing the customers to bring in their own unapproved food products pending submittal of a variance application, operational plan, and associated fees. On November 3, 2017 you and your representative met with WCHD staff where you provided a variance application and operational plan. During this meeting, it was decided that an application for an Outdoor Food Establishment must also be submitted and you were informed that the WCHD would review the variance application and propose revisions. The WCHD has been in contact with you and your representatives over the last several weeks. You have not submitted a revised variance application or the Outdoor Food Establishment Permit application and associated fees. The WCHD has reviewed and evaluated the operational plan submitted on November 3, 2017. The operational plan does not include required or satisfactory operating procedures to ensure potential public health hazards are addressed.

The WCHD hereby notifies you that you are in violation of the following provision of the Regulations of the Washoe County District Board of Health Governing food Establishments:

050.010 (A) Compliance

Food must be obtained from approved sources.

050.010 (C) Compliance

Employees are visibly observing foods as they are received to determine that they are from approved sources, delivered at the required temperatures, protected from contamination, unadulterated, and accurately presented, by routinely monitoring the employees' observations and periodically evaluating foods upon their receipt;

030.005 (A) Assignment, person-in-charge required

The permit holder shall be the person-in-charge or shall designate a person-in-charge and shall ensure that a person-in-charge is present at the food establishment during all hours of operation.

120.010 Barbecue, operational plan required

An operational plan must be submitted to, and approved by, the Health Authority before a food establishment may construct or operate a barbecue. The plan must include the equipment to be used in the construction or operation of the barbecue and describe the facility for, and the operation of, the barbecue

200.010 Outdoor food establishment, permit to operate

- A. No person may operate an outdoor food establishment without first having obtained a permit to do so from the Health Authority.*
- B. The permit to operate an outdoor food establishment shall be separate and distinct from the permit to operate the supporting food establishment.*
- C. A permit to operate an outdoor food establishment shall be an annual permit.*
- D. The Health Authority shall not issue a permit to operate an outdoor food establishment if there is no supporting permitted food establishment or if the supporting food establishment is not able, in the opinion of the Health Authority, to support the outdoor food establishment operation as indicated in the permit application.*

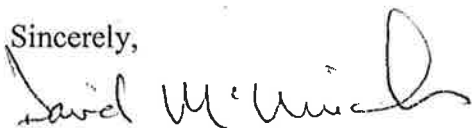

As a result of the above referenced violations, the WCHD has determined that operation of the Pignic food establishment, Permit #F140409 constitutes a substantial health hazard. **You are hereby issued a cease and desist for all operation of the referenced food establishment and your food establishment permit #F140409 is suspended.** You must remove all non-bar permit related food products from your facility within 24 hours of this notice and discontinue the use of all outdoor barbeque equipment by your business and by customers immediately upon receipt of this notice. The only active permit for this location is for the service of beverages under your bar permit, #F140408.

In order to achieve permit reinstatement, you must submit written procedures to the WCHD that clearly define proposed foodservice operations are in compliance with the above referenced sections of the Regulations of the Washoe County District Board of Health Governing Food Establishments. Written procedures must include proposed menu items and a list of equipment to be used in all food preparation activities.

Failure to comply with this order is a misdemeanor pursuant to NRS Section 446.945 and may result in further legal action.

If you wish to appeal this decision pursuant to the Regulations of the Washoe County District Board of Health Governing Food Establishments, Section 240.105, a written request for a hearing before the Food Protection Hearing and Advisory Board must be filed with the WCHD within ten business days of receiving this notice.

Sincerely,

A handwritten signature in black ink, appearing to read "David McNinch". The signature is fluid and cursive, with a large initial "D" and "M".

Sent To Ryan Goldhammer/Pignic Pub Patio

PS Form 3811, July 2015

Date: November 3, 2017 (Revised 11/17/2017)

From: Ryan Goldhammer, Trevor Leppek

TO: Washoe County District Board of Health (Health Authority)

RE: Pignic Pub and Patio located at 235 Flint Street, Reno Nevada 89501
Application for Variance from Regulations Governing Food Establishments

STATEMENT OF PROPOSED VARIANCE

As the Owners of Pignic Pub and Patio we provide the following Application for Variance in response to Cease and Desist order issued on October 18, 2017. The Order was specific to the following Regulations:

200.055 Outdoor food establishment, food preparation by consumer

Consumers may be permitted to cook, baste and season while cooking food items for their own personal consumption provided:

- A. A food handler from the supporting establishment is physically present in the outdoor food establishment;
- B. The consumer uses only food items, utensils and equipment provided from the supporting food establishment or outdoor food establishment;
- C. The consumer is made aware of approved safe time and temperature requirements for the food items being prepared and is provided with and instructed on the use of calibrated temperature measuring equipment if requested;
- D. The consumer is made aware of the physical hazards related to using the outdoor food establishment's equipment;
- E. The consumer is not cooking, basting or seasoning while cooking food items for anyone's consumption but their own; and
- F. The permit holder has an approved operational plan on file with the Health Authority specifically relating to cooking by the consumer.

We respectfully request a variance to sub-sections B and E of 200.055.

RATIONALE

Pignic Pub and Patio values the importance of regulations that enhance our quality of life and keep the public safe. We have every intention of maintaining the intent of these regulations but simply cannot operate the Pignic Pub and Patio business model, as we have since 2014, and comply with these strict standards.

Pignic Pub and Patio provides a unique and innovative service that is becoming more and more popular as consumers desire the opportunity to provide their own food, cook, serve and consumption with friends and family or by themselves.

The following describes how Pignic Pub and Patio will alternatively address the public health hazards and nuisances of the regulations once the Variance is approved:

200.055, sub B: This regulation goes to the core of the innovative Pignic Pub and Patio business model. Consumers must be allowed to bring in their own food, prepare and serve it. It is important to note that consumers prepare and cook their food on Pignic Pub and Patio equipment (barbecues, tables etc.) but they provide their own food and

utensils. Pignic Pub and Patio will require that food provided by the consumer will be received in original packaging, at proper cold temperature, and that a copy of the sales receipt be kept as documentation by Pignic.

200.055, sub E: The strict standard "while cooking food items for anyone's consumption but their own;" implies that the cooked and prepared food cannot be shared among the others in their party. It is important that they can and Pignic Pub and Patio will inform the consumers and monitor their activity for compliance.
