Completing Your Personal Property Declaration

Presented by the
Washoe County
Assessor's Office

Why Did I Receive a Notice to File a Property Declaration?

All businesses in Washoe County must complete and file a declaration annually which lists all **Personal Property** owned, possessed, controlled, or leased by the business, and located in Washoe County as of the lien date, July 1st.

What's the Purpose of the Property Declaration?

The completed declaration provides information needed to determine the taxable value of business personal property. Taxation of personal property has been in effect since Nevada became a state in 1864.

When is the Declaration Due?

The Declaration is normally filed with the Assessor by July 31st of each year, or 15 days from receipt, whichever is later. By statute the Assessor *may* grant one or more 30-day extensions.

What Happens if I don't file my Property Declaration?

Per statute, the Assessor is required to estimate the value of the personal property for any business for which a completed declaration is not received.

What Is Personal Property?

All property that is not defined or taxed as "real estate" or "real property" is considered to be "personal property."
“*Personal*” refers to the *kind* of property, not to who owns it.

Taxable personal property includes mobile homes, aircraft, billboards, and commercial equipment.

Examples of Personal Property

- Counters, cabinets, shelving, display cases, computers, peripherals, software
- Furniture, office equipment, phone systems, sound systems, alarm systems
- Window treatments, appliances, cleaning and maintenance equipment
- Manufacturing machinery and equipment, tools, specialized tenant improvements, signage, uniforms

Business Personal Property

Business personal property is taxable whether it is owned, leased, rented, loaned, gifted, borrowed or otherwise made available to the business. Nevada Revised Statutes, (NRS) chapters 360-361, provide for the taxation of all property, unless specifically exempted by law.

What Personal Property is Exempt?

- Business inventory held for resale
- Raw materials
- Consumable supplies (disposables)
- Livestock
- Boats, Watercraft and Campers
- Personal household belongings

Exemption of household goods does *not* extend to personal property or furnishings rented or leased to another party or rented in conjunction with the rental of a dwelling unit.

Costs *Not* to Report

Taxpayers should not report:

- custom software costs
- disposables
- sales tax
- real property improvements
- license and franchise fees
- normal maintenance costs
- vehicles currently registered with DMV
- items not located in Washoe County

Home Based Business

For home-based businesses, taxpayers should report equipment used, or available for use, to conduct or promote the business, regardless of the percentage of time it is used.

Reporting Assets

All assets and equipment used for your business, regardless of the item's value, age, owner, book value, or its method of acquisition, should be listed completely and accurately on the declaration. A completed listing includes a brief description of the asset, its cost to you, and the year you acquired it.

Cost Defined

The cost is defined as the purchase price of the item, including any applicable shipping and installation charges. Major retrofits or upgrading should also be included.

Items with no acquisition cost

- Estimate the value of the item at the time you received it, and report the acquisition year as the same year you received it;
- Or
- Estimate the value of the item today and report the current year as the acquisition year.

Sample Listing

Alt Dscr	Units	Year Acq	Year Roll	Ecn Life	Obs %	Idx	Orig Cost
12 CHAIRS	0 NA	2019	2019	15	0	100	\$1,750.00

CONFERENCE TABLE	NA	2020	2020	15	0	0	\$1,000.00
PHONES	NA	2020	2020	5	0	0	\$1,500.00

Acquisition Year

Acquisition year means the calendar year you acquired an item, even if the item wasn't new, or was acquired before the business opened.

The year of acquisition is needed so that the property's value can be calculated based upon the Nevada Tax Commission's **Expected Life Schedules**.

Leased Items

- Report the name and mailing address of the entity you are leasing from.
- Report acquisition cost as the cost that would have been paid by the user to purchase the equipment at the time the lease commenced.

Expected Life / Depreciation Schedule

- Life expectancies for assets are developed by the Nevada Department of Taxation and approved by the Nevada Tax Commission.
- The depreciation schedule for each life category is published annually by the Nevada Department of Taxation. It can be viewed on the Assessor's website.

Each year the Division of Assessment Standards of the Nevada State Department of Taxation publishes the Personal Property Manual. Contained in this manual are tables of index and depreciation factors used to develop the taxable value for personal property. The table used is dependent on the expected life for the type of property or industry group. The tables include Cost Index factors which convert the items original cost to current replacement cost. That figure is then depreciated resulting in the items taxable, or full cash value. Assessed value is calculated by applying the assessment ratio of 35%.

Example:

A computer was acquired in 2021 for \$1500.

$\$1500$ (actual cost) \times 1.15 (cost index for 2021 2 year life) = $\$1725.00$ (cost of replacement)

$\$1725 \times 0.11$ (percent good for 2021 2 year life) = $\$189.75$ (taxable value)

$\$189.75 \times 0.35$ (assessment ratio) = $\$66$ (assessed value rounded)

Closed, non-operational, or sold businesses.

Please remember:

Keeping the Assessor informed of any changes in ownership, business address, mailing address or status is the responsibility of the taxpayer.

Review and Audit

- The appraisal staff may conduct field verifications and desk audits for data reported on the declaration.
- Taxpayers may also be contacted by a professional auditing service engaged by the County (Tax Management Assoc).

When Should I Expect a Tax Bill?

- The personal property tax bill may be calculated and sent any time between the time the declaration is received and the following April 30th.
- The Assessor may also send a tax bill for any previously undiscovered taxable property for up to three years from when it should have been assessed.

Are taxes prorated?

- No. The tax year runs from July 1 to June 30. Usually, only businesses open on July 1 are billed for that tax year.
- Businesses opening after July 1 will be billed in the following tax year.

Minimum Tax Bill NRS 361.068(2)

NRS provide for the exemption of a minimum value when the calculated tax bill is below a certain amount.

For 2023-24 the minimum tax bill is \$10.00, about \$780.00 in value.

In 2022-23, 3,155 (approximately 20%) commercial accounts did not receive a tax bill.

*Excel Filers must use our template and follow instructions.
Failure to do so will result in a 20% penalty. NRS 361.767*

ALL FILERS:
Do not change, add or delete information in columns T through W. Any edits made to this section will cause your declaration to be rejected.

GROUP FILERS:
Excel filing is required for all grouped accounts. **All** the assets from **all** your accounts are included in the downloaded asset file. You can only file it to the master account number on your Notice to File.

Changes to Existing Accounts:

- Do not add or move rows or columns. All new to roll assets should be reported at the bottom. Do not leave any blank lines.
- Only mark assets that have been removed or disposed for deletion. If an asset has been removed or disposed mark column I (Mark for Deletion) with an X and the item will be removed during processing. If an item was disposed and not replaced, please provide a brief explanation in column S.
- If you made changes to an existing asset, please add an X in column J (Change Made). An example would be changing the asset description of office furniture to desks. Please make a note about what was changed in column S.

New to Roll Assets must have:

- A description of the item in column B (Manual Description) is required. Please be specific enough that a life category may be determined during processing. Leasehold or tenant improvements must be broken down. Different components of the improvement may require different life categories. For example: you spent \$100,000 on leasehold improvements that included the construction of interior walls as well as the purchase of a piece of equipment. Each component must be separately listed so the appropriate life can be assigned.
- If possible, please provide the serial number of the asset in column C (Serial No.).
- Please mark column D (1st Report year?) with an X if the item is new to the roll this year.
- The Acquisition year goes in column E (Year Acquired)
- The Acquisition Cost goes in column F (Acq Cost). No negative numbers will be considered. Any adjustments or credits to an asset must be done prior to being input in our template.
- Please indicate the economic life you believe is appropriate in column G (Economic Life).

- Billboard Accounts:** Please include GPS coordinates into column P (Notes).
- Lessor & Vendor Accounts:** Lessee name and item-location address (columns K & L) are required. Failure to provide either will result in your submission being returned and/or a 20% penalty. Assets no longer on lease should be noted as either "returned" or "purchased" (by the lessee) in column P (Notes).
- Economic Development Accounts:** To receive your abatement, mark column H (Abatement) with an X if you believe that item qualifies.

FAQS

Lease Information

- Lessor- Owner of the equipment who receives lease payments
- Lessee- The user of the equipment who makes lease payments
- “Lease type”
- Cost reported is cost basis (value) for calculation of lease payment

O=Operating Lease

Leases not deemed to be Finance or Capital leases. Payments are insufficient to recover the full cost of the asset. Term is shorter than the expected life of the asset. Has a cancellation option. Typical for high-tech equipment. Most operating leases require the Lessor to maintain the equipment and is responsible for taxes.

C=Capital Lease

Payments are sufficient to fully amortize the cost of the asset plus provide a return to the Lessor. Lease is not cancellable. Lessee is generally responsible for maintenance, insurance, and taxes. Most similar to the finance of a purchase where lessor transfers ownership at the end of the lease term. There may also be an option to purchase.

S=Conditional Sales

Direct financing or sale type lease. Non-true lease where Lessee acquires title when a certain amount of rent has been paid; or, certain percentage of payments designated as interest; or, Lessee may have right to purchase for nominal price after lease period, etc.

P=Purchase Option Lease

Capital or Finance Lease with purchase option. Simple lease structure. Typically option to purchase is \$1.00, 10% of original cost, or fair market value.
