Nature Holiday Cards

Materials:

- Cardstock, construction paper, etc.
- Nature greenery (pine needles, juniper, etc.)
- Glue
- Markers, crayons, etc.

Directions:

1. Choose your paper of choice and fold in half to make a card. I would recommend doing all of your writing, coloring, etc. BEFORE gluing on the pieces of greenery you have collected.
2. Once colored, decorate your card with pieces of nature! You can glue on random pieces, make a tree, wreath, etc., get creative with it!

3. Share your nature holiday cards with friends and family.
