

Items to Consider (if filming live event)

Tripod: <https://tinyurl.com/tripodOAM>

Cell Phone Camera Mount: <https://tinyurl.com/MountOAM>

Preferred Settings

Resolution: 1080p or 4K

Frame Rate: 30 fps (Frames Per Second) or 24 fps

iPhone

Settings -> Camera -> Record Video and choose either 1080p at 30 fps or 4K at 24 fps

In Native iPhone Camera app, select “video” from the list of options at the bottom and press the red “record” button.

Android

Settings -> Apps -> Camera, tap gear icon -> Rear Video Size -> Select 16:9 -> Resolution FHD 1920x1080 or 4K, if available.

Alternative method:

Click camera icon -> click gear icon (upper left, most Androids) -> Rear Video Size -> Select 16:9 -> Resolution FHD 1920x1080 or 4K, if available.

Zoom

1. [Changing settings in the desktop client or mobile app – Zoom Help Center](#)
2. [Local recording – Zoom Help Center](#)

Do's and Don't's

Don't use copyrighted music or images without the proper release. If you have a release, I will need a copy to upload with the video.

Do feel free to contact me with any questions regarding settings, formats, helpful items, and technical assistance at 775-433-4912 or rcrane@washoecounty.us.

All videos can be uploaded to our shared OneDrive. If you are using a format not outlined above, please contact me PRIOR to any filming (preferably 24-48 hours).
